WHAT ARE THE NUMBERS?

DISCRAFT STABILITY RATINGS

The stability of a disc refers to a left or right track during its flight. A disc that flies straight when thrown flat and with enough spin has a 0 stability rating. The numbers 1 to 3 indicate an "overstable" disc that will pull or turn to the left, with 1 being less turn and 3 being a hard turn.

All stability ratings are for right handed, back hand throws at moderate to high speed. The chart is reversed for left handed players.

DISTANCE DRIVERS

Disc	Skill Level	Wind & Roller	150 Class	Stability Rating / Available Plastic Blends						
				Pro D	X	Z	Z LITE	FLX	ESP	Ti
Flick	3	W	YES			2.5
